SWISSTRONIK EMPLOYMENT AGREEMENT

Effective Date: August 28, 2026
Start Date: August 29, 2026

This Employment Agreement (the "Agreement") is entered into between the following Parties:

1. PARTIES

Employer:

Company Name: Swisstronik
Company Address: Dammstrasse 16, 6300 Zug, Switzerland
Authorized Representative: Constantin Guggi
Title: Chief Executive Officer (CEO)

Employee:

Full Legal Name: David Miller
Residential Address: [Employee Address]
Position: [Job Title]

The Employer and Employee may individually be referred to as a "Party" and collectively as the "Parties."

2. PURPOSE OF THE AGREEMENT

The Employer hereby employs the Employee to provide professional technical services and contribute to the development, maintenance, and improvement of Swisstronik's blockchain ecosystem and related technology products.

The Employee shall perform assigned responsibilities in accordance with the Company's technical requirements, development roadmap, engineering standards, security policies, and project priorities.

The Parties intend to establish an employment relationship rather than an independent contractor, partnership, agency, or joint venture relationship.

3. PROJECT SCOPE

The Employee's primary responsibility is to contribute to the development and continuous improvement of Swisstronik's blockchain infrastructure and ecosystem products.

The principal development objectives include:

3.1 Blockchain Infrastructure Development

Development and maintenance of blockchain infrastructure, network integration, transaction functionality, and supporting services.

3.2 SWTR Ecosystem Integration

Implementation and support of functionality related to the SWTR ecosystem, including token-related integration, wallet interactions, blockchain transactions, and ecosystem participation.

3.3 Developer and User Experience

Development of accessible interfaces, APIs, tools, and integrations that simplify blockchain adoption for developers, businesses, and end users.

3.4 Smart Contract and Decentralized Applications

Development, integration, testing, and maintenance of smart contracts and decentralized application functionality.

3.5 Platform Performance and Security

Improvement of system reliability, scalability, transaction processing, application performance, and security.

These objectives represent the principal areas of the Company's technical development roadmap. Specific responsibilities will depend on the Employee's assigned position.

4. TECHNICAL DEVELOPMENT RESPONSIBILITIES

Depending on the Employee's position and assigned projects, responsibilities may include:

Blockchain infrastructure development and integration.

Smart contract development and deployment.

Frontend and user-interface engineering.

Backend services and API development.

Wallet connectivity and transaction processing.

SWTR ecosystem and token integrations.

EVM-compatible application development.

Decentralized application (dApp) development.

Database and data-layer implementation.

Blockchain explorer and transaction-data integrations.

Testing, debugging, and quality assurance.

Security reviews and vulnerability remediation.

Performance optimization and scalability improvements.

Code reviews and engineering documentation.

Deployment, release management, and maintenance.

Integration with third-party blockchain protocols and services.

The Company may assign specific tasks through technical specifications, development tickets, sprint plans, milestones, project documentation, or written instructions.

5. TECHNICAL ARCHITECTURE AND STANDARDS

The Employee shall follow the technical architecture and engineering requirements established by the Company's designated technical representatives.

Where applicable, development may involve:

EVM-compatible blockchain architecture.

Noncustodial decentralized application infrastructure.

Automated Market Maker (AMM) functionality.

Concentrated liquidity mechanisms.

Flexible liquidity-pool fee structures.

Governance-controlled protocol functionality.

Price and liquidity oracle integrations.

Multiple liquidity pools per token pair.

Non-fungible liquidity positions.

Smart contract interoperability.

The Employee shall not materially modify approved architectural decisions, blockchain integrations, or core protocol functionality without prior authorization from the designated technical representative.

6. DEVELOPMENT OBLIGATIONS

The Employee agrees to:

Perform assigned responsibilities professionally and within agreed deadlines.

Follow the Company's engineering standards and technical specifications.

Deliver maintainable, scalable, and secure code.

Participate in code reviews and technical discussions.

Identify and report technical risks, blockers, and dependencies.

Test assigned functionality before submitting deliverables.

Correct defects attributable to the Employee's work.

Maintain proper version-control and repository practices.

Protect Company credentials, source code, repositories, and confidential materials.

Cooperate with engineering managers, developers, product managers, and other stakeholders.

Provide reasonable technical documentation for completed work.

Report development progress according to the Company's reporting procedures.

7. DEVELOPMENT PROCESS

The Employee shall follow the Company's development and delivery procedures, which may include:

Sprint planning and task allocation.

Technical requirement reviews.

Development milestones.

Git-based version control.

Pull requests and code reviews.

Testing and quality assurance.

Staging and production deployments.

Technical documentation.

Progress reporting.

Release management.

The Company reserves the right to adjust project priorities and development requirements as its business and technical roadmap evolves.

8. COMPENSATION AND PAYMENT

The Employee's annual base salary shall be agreed within the following compensation range:

Annual Salary Range: USD $230,000 – $250,000.

The exact annual base salary shall be specified in the final signed version of this Agreement.

Compensation shall be:

Paid monthly according to the Company's payroll schedule.

Subject to applicable tax withholding and payroll deductions.

Paid through the Company's designated payroll method.

Subject to any additional compensation or benefits expressly agreed upon in writing.

Any performance-based bonuses, incentives, or additional compensation shall be documented separately or through a written amendment signed by both Parties.

9. EMPLOYMENT STATUS

The Employee is engaged as an employee of the Company and not as an independent contractor, partner, agent, or joint venturer.

The Company shall be responsible for applicable employer payroll withholding and employment obligations, as required by applicable law.

The Employee shall comply with applicable employee tax, reporting, and other legal requirements.

Nothing in this Agreement shall waive any mandatory employment rights or statutory protections available to the Employee.

10. INTELLECTUAL PROPERTY OWNERSHIP

All original work product specifically developed or created by the Employee within the scope of employment shall belong to the Company to the maximum extent permitted by applicable law.

Such work product includes, without limitation:

Source code and software applications.

Smart contracts and blockchain implementations.

Technical architecture and system designs.

Documentation and technical specifications.

Scripts, tools, and configurations.

User-interface designs and application components.

Database structures and technical integrations.

Other project-related technical deliverables.

The Employee agrees to execute reasonable documents necessary to confirm or transfer applicable intellectual property rights to the Company.

Pre-existing intellectual property owned by the Employee before employment shall remain the Employee's property unless expressly assigned in writing.

Third-party software, open-source libraries, and external components shall remain subject to their applicable licenses and terms.

11. CONFIDENTIALITY AND NON-DISCLOSURE

The Employee shall maintain strict confidentiality regarding all non-public information relating to Swisstronik, its business, technology, and operations.

Confidential information includes, without limitation:

Source code and private repositories.

Blockchain architecture and infrastructure.

Smart contract implementations.

Technical documentation and specifications.

SWTR ecosystem information.

Business strategies and development roadmaps.

Financial and commercial information.

Investor and partnership information.

Security configurations and credentials.

User and customer information.

Unreleased products and features.

Internal communications and project materials.

The Employee shall not disclose, distribute, copy, or use confidential information for purposes unrelated to employment without prior written authorization.

These obligations shall continue after termination of employment, subject to applicable law.

12. DELIVERY AND ACCEPTANCE

All development deliverables shall be submitted through the Company's designated repositories, development environments, project-management systems, or other approved channels.

The Company may review submitted work to determine whether it meets the agreed technical specifications and acceptance criteria.

Where deliverables materially fail to satisfy agreed requirements, the Employee shall reasonably cooperate in identifying and correcting the relevant issues.

13. PROJECT CHANGES AND RESPONSIBILITIES

The Company may update or reprioritize development requirements based on:

Technical discoveries.

Product requirements.

Security considerations.

Business objectives.

User feedback.

Changes to the Company's development roadmap.

Material changes to the Employee's overall responsibilities, compensation, or employment terms shall be documented and agreed upon by both Parties in writing, subject to applicable law.

14. TERM OF EMPLOYMENT

This Agreement shall commence on the Effective Date specified above.

Start Date: August 29, 2026
Initial Term: Two (2) Years

The Agreement shall remain effective during the initial term unless terminated earlier in accordance with this Agreement and applicable law.

The Parties may mutually agree to extend or renew the Agreement through written documentation.

15. TERMINATION

Either Party may terminate this Agreement by providing thirty (30) days' written notice, subject to applicable employment laws and any mandatory statutory requirements.

The Company may terminate employment for lawful reasons and in accordance with applicable legal procedures.

Upon termination, the Employee shall:

Return all Company-owned equipment and property.

Transfer relevant source code, project documentation, and development materials.

Return or securely delete Company credentials and confidential information, subject to legal retention requirements.

Cooperate reasonably with the transition of assigned responsibilities.

Complete any outstanding handover obligations reasonably requested by the Company.

The Company shall pay all undisputed wages and other amounts properly earned through the effective termination date, in accordance with applicable law.

16. EMPLOYEE REPRESENTATIONS

The Employee represents and agrees that:

1. The Employee has the legal capacity to enter into this Agreement.
2. The Employee's performance will not knowingly violate existing contractual obligations.
3. The Employee shall perform assigned responsibilities professionally and in good faith.
4. The Employee shall comply with applicable laws and regulations.
5. The Employee shall not knowingly introduce third-party intellectual property into Company deliverable in violation of applicable licenses.
6. The Employee shall maintain appropriate security practices when accessing Company systems and repositories.
7. The Employee shall promptly disclose any material conflict of interest affecting the performance of assigned responsibilities.

17. GOVERNING LAW

This Agreement shall be governed by and interpreted in accordance with the laws of the State of Texas, United States, without regard to conflict-of-law principles, except where mandatory applicable law requires otherwise.

Nothing in this section shall exclude mandatory employment protections or legal requirements applicable to the actual employment relationship.

18. GENERAL PROVISIONS

Entire Agreement: This Agreement constitutes the understanding between the Parties concerning the employment relationship and supersedes prior discussions concerning the same subject matter.

Amendments: Any amendment shall be made in writing and signed by both Parties.

Severability: If any provision is found unenforceable, the remaining provisions shall remain effective to the extent permitted by law.

Notices: Formal notices under this Agreement shall be delivered through the Parties' designated written communication channels or addresses.

Electronic Signatures: Electronic signatures may be accepted to the extent permitted by applicable law.

19. SIGNATURES

By signing below, the Parties acknowledge that they have read, understood, and voluntarily agreed to the terms and conditions of this Employment Agreement.
